EXPERIENCE

- **Coding Blocks** *June 2024 - November 2024*
  Full-Stack Developer - Apprenticeship New Delhi, India
  - Led a 3-person team Communicated and collaborated in the development of the PolyLingua multilingual language translator, utilizing REST API to achieve real-time and accurate multi-language translations as per organizational skill.
  - Achieved a 30% reduction in user errors, improving the translation reliability and user experience.
  - Enhanced communication across 90+ languages, ensuring seamless interaction in diverse environments.
  - Presented at the University Project Showcase, earning positive feedback for UI and usability.

EDUCATION

- **GLA University** *Sept 2022 - June 2026*
  Bachelor's in Computer Science Engineering Mathura, India

PROJECTS

- **PriceLens – Product Price Intelligence Platform** *Jan 2026 - June 2026*
  Tools: React.js, Vite, Node.js, Express.js, MongoDB, Redux Toolkit, Redis, BullMQ
  - Translated the business problem of fragmented online pricing data into a full-stack price comparison platform spanning 8+ technologies.
  - Developed 15+ RESTful APIs for authentication, products, reviews, and URL-based price tracking.
  - Engineered web crawling and scraping pipelines to aggregate, classify and normalize product data for cross-platform comparison.
  - Optimized JWT authentication, Redis caching, and BullMQ queues for scalable background processing.
  - Designed 20+ reusable React components using Redux Toolkit and TanStack Query.
  - Performed Unit and Automated tests using Jest and Supertest to make sure the smooth running of the web app.

- **Workflow-Driven Hospital Management System** *March 2026 - April 2026*
  Tools: React.js, Vite, MongoDB, Node.js, Express.js
  - Developed a full-stack hospital management system supporting 100+ patient records and appointment workflows.
  - Integrated RESTful APIs handling authentication, scheduling, and data operations with average response time under 200ms.
  - Implemented role-based access control for 3 user roles (Admin, Doctors and Patients), ensuring secure data access.
  - Architected React.js interfaces enabling real-time slot booking, reducing manual scheduling conflicts by 30%.
  - Secured the application using JWT authentication, reducing unauthorized access risks.

SKILLS

- **Programming & Core CS :** Java, JavaScript, Python, C, OOP concepts
- **Database & Data :** SQL, RDBMS Concepts, MongoDB, MySQL, Vercel, Render
- **Backend & APIs :** Node.js, Express.js, REST APIs, JWT, Redis
- **UI / UX :** Figma, Canva, Miro, Wireframing, Prototyping, UI Design, Responsive Design, Design Systems.
- **Frontend Development :** React, HTML, CSS, Tailwind CSS
- **Developer Tools :** Git, GitHub, Linux, Postman, MS Office(Excel, PowerPoint), Jira, Agile, SDLC

CERTIFICATIONS

- **Infosys Springboard:** Data Structure & algorithms in Java, DBMS, Software Engineering *May 2025*
- **Cisco Network Academy:** Switches, Routing, Wireless Networking, Network Security *April 2025*
